Membership Means Ownership

At ETEX Telephone, we never forget the fact that we are something more than a company. We are a cooperative. We operate on a non-profit basis, so we share our success with the people who support us.

That makes you something more than a customer. You are a member of our cooperative - an investor in our success. You are, in fact, one of our co-owners. As such, you share in a rich heritage of independent service.

That heritage dates back over 70 years. In 1949, the U.S. Congress created the Rural Electrification Administration, which authorized low-cost loans to assist in the formation of rural telephone systems like ours. In 1952, ETEX Telephone was founded by a group of East Texas residents with a clear mission: to provide reliable telecommunications in a region that was not being served by profit-oriented telephone companies.

Over the years, we have worked diligently to fulfill our mission. We have introduced state-of-the-art technology, ranging from features like Caller ID to services like Internet access. Above all, we have maintained our independent identity.

With your ongoing support, we can equal – and even surpass – the larger telephone companies. We are proud to provide our community with quality service and advanced technology. As a cooperative member, you deserve to share our pride. Working together, we will continue to play a major role in East Texas.

INCORRECT DIRECTORY LISTINGS

The vast majority of all directory listings are correct. But, as with any job of this size, some errors are bound to occur. If your listing in the directory is incorrect, it cannot be changed until the next edition of the directory is issued. In the meantime, we can make sure the listing is correct in Directory Assistance records. In some cases it is possible for calls to an incorrect number to be rerouted to the correct number. To arrange this, call your telephone business office, as listed above.

WARNING

The law of the state of Texas makes it unlawful to obtain telecommunications service with the intent to defraud any individual, corporation or other person of the lawful charges, in whole or in part, therefore, through the use of false or unauthorized or fictitious telephone numbers or credit card numbers or a code or prearranged scheme or by any other trick, false representation, or means: and declaring an emergency.

MEMBER PROVIDED EQUIPMENT: Under the Federal Communications Commission’s registration program, you may supply your own telephone or other terminal equipment and connect it directly to the nationwide telephone network. The equipment must be approved by the FCC and you are responsible for its proper connection, maintenance and repair. FCC rules also require that you notify the Cooperative before connecting your equipment. Your equipment may not be connected to coin telephone service and party lines.

TROUBLESHOOTING YOUR CUSTOMER-OWNED EQUIPMENT*

SHOULD YOU INCUR TELEPHONE TROUBLE, TRY THE FOLLOWING PROCEDURE BEFORE CALLING THE TELEPHONE COMPANY. THIS COULD SAVE YOU A TRIP CHARGE.

* This procedure could also apply to company-provided sets. The results would aid the telephone company in restoring your service.

TYPE OF TROUBLE	POSSIBLE CAUSES	SOLUTION
1. No Dial Tone on One Set	Loose Wiring Defective Set, Wiring, or Jack	Physically inspect set, wiring, connections and jacks. Reinsert loose plugs or tighten loose wiring. Try a different set in the same jack as the non-working set. If: 1. New set works – original set is defective. 2. New set does not work – try original set in a different jack; there may be trouble in the wiring or jack.
2. No Dial Tone on All Sets	One Bad Set or Receiver Off Hook Defective Wiring	First, make a physical inspection of all sets and wiring/jacks for loose connections or receiver off hook. Next, disconnect all sets. Plug in (connect) and test each set individually for dial tone. Unplug (disconnect) the set after testing before testing the next set. If one set does not work, then test as stated in Item 1. Inspect the wiring inside and outside of the house. If loose, cut, or frayed wiring is found, report the findings to your telephone company repair service. If you have the ETEX Maintenance Plan, there will be no charge for repairs.

If the trouble occurs during this process, the set being tested is causing the trouble. This set should be checked for loose connections. If this fails to eliminate the trouble, the set needs other service.

6. All Sets Do Not Ring (But do have dial tone)		<p>If more than one set stops ringing, call your local telephone company repair service.</p>

If the above procedures have not cleared or located your trouble, you should call your local telephone company repair service. Be sure to give the representative the results of your testing. **Remember, there may be a trip charge if a set you own is causing trouble.**

CALLING FEATURES BRING VARIETY

When you think about rural telecommunications, you may assume that cooperative members have limited choices. Just the opposite is true, however, for the people served by ETEX Telephone. As part of our commitment to full-service communications, we offer a wide range of calling features.

CALL FORWARDING

Call Forwarding lets you transfer your incoming calls to any other local telephone number or long distance telephone number.

To Forward Calls:

From a Pushbutton phone, *72. You will hear a second dial tone.

If you have a Rotary Dial phone, dial 1172. After a four-second pause, you will hear a second dial tone.

- Dial the local or long distance (1 + Area Code + Phone Number) number you want your calls forwarded to. When the other phone is answered, Call Forwarding is in effect. Tell the person answering that your calls are being forwarded to that number. If forwarded to a long distance number, the long distance call will be charged to your local phone.
- If the called telephone is busy or doesn't answer, hang up, immediately repeat step one and dial the number where you want your calls forwarded. When you hear two short tones, hang up. The service is in effect.
- To verify this, dial your own number. If you hear a ringing, the service is working.
- Your phone can still be used to place outgoing calls. While Call Forwarding is in effect, your phone will ring once when someone calls you. However, calls can only be answered at the phone where they're being forwarded.
- To return to normal service, *73. You'll hear two short tones, followed by a dial tone. This indicates that forwarding is no longer in effect.
- If you have a Rotary Dial phone, dial 1173. After a four-second pause, you will hear two short tones, followed by a dial tone.

CALL WAITING

A soft tone at ten second intervals signals you that someone else is trying to call you while you are on the telephone. Only you will hear this signal. The party calling you will hear the usual ringing signal.

- To answer the second call, depress the switchhook for one second to place the first call on "hold" and answer the second call.
- Return to the first call by depressing the switchhook again for one second. This leaves the second call on "hold." Alternate between the two calls by depressing the switchhook as often as you like.
- To end either call, ask one person to hang up. Then depress the switchhook to return to the other call. If a third caller tries to reach you while two calls are connected, the third caller will get a busy signal.

Some customer premises equipment may not be able to produce a distinctive signal, ring or tone. The Cooperative accepts no liability for customer premises equipment that is not compatible with some of these services.

THREE WAY CALLING

Three-Way Calling lets you add a third party, local or long distance, to an existing conversation.

- Depress the switchhook for one second. This places the original call on “hold”.
- Listen for three rapid tones followed by a dial tone.
- Dial the number of the person you want to add to your conversation. When that person answers, you can talk privately before bringing the original call back on the line.
- To add the original call, depress the switchhook for one second. This establishes the Three-Way Call.
- If you try to add a third person and the phone is busy or doesn't answer, cancel that call by depressing the switchhook twice, releasing immediately each time. This will return you to the original call.
- To remove either call from your three-way conversation, ask one of them to hang up. You can continue to talk with the remaining person.

SPEED CALLING

Speed Calling lets you program your phone to dial often-called numbers using one-digit Speed Calling codes of 2 thru 9 for up to 8 telephone numbers. You can dial both local and long distance calls with Speed Calling.

- To use Speed Calling, dial the Speed Calling code, using any one of the numbers 2 thru 9. If you have a pushbutton phone, depress the Speed Calling code then the # symbol.
- To enter or change a number on your Speed Calling List:
 1. Listen for the dial tone and dial *74 or rotary dial 1174.
 2. Listen for second dial tone and dial the Speed Calling Code.
 3. Dial the complete local or long distance number you are assigning to that code.
 4. Listen for two spurts of tone to confirm your entry.

Some customer premises equipment may not be able to produce a distinctive signal, ring or tone. The Cooperative accepts no liability for customer premises equipment that is not compatible with some of these services.

Repeat Dialing calls back the last number that you called, whether you received a busy signal or need to re-contact that person. If the line is busy, Repeat Dialing keeps trying for up to 30 minutes. When the line is free, Repeat Dialing signals you with a special ring (some telephone sets are capable only of providing a standard ring) and places the call for you.

You can place or receive other calls while Repeat Dialing is at work. And you can have Repeat Dialing calling back more than one number at a time.

To use Repeat Dialing:

- Pick up the phone, listen for a dial tone and press *66 (on a Rotary Phone, dial 1166).

CALLER ID / CALLER ID BLOCK

Caller ID identifies the information of most incoming direct dialed local calls and some long distance calls before you answer your phone. Subscription to Caller ID requires a display telephone or an add-on display unit. Information includes the number, the name, or the name and number. Caller ID Block prohibits your telephone number and/or name from being displayed on caller ID units. The block can be added to your calling features.

How to use Caller ID:

- When you receive a call, wait until your telephone completes the first ringing signal.
- The telephone number, or name and number, of the person calling you will automatically appear on your display screen.
- If you choose to answer the call, the number will remain on the screen until you or the caller hangs up.
- If "anonymous" or "private" appears on your screen, the caller may have blocked the display of their number by pressing 67 (on a Rotary Phone dial 1167) before placing the call.
- If "out of area" or "unknown number" appears, the caller is in an area that does not support Caller ID services.

PRIORITY CALL

It is important to remember that both per-call and per-line blocking will not block your billing telephone number to Emergency 9-1-1, nor will it currently prevent your number from being transmitted on 700, 800, or 900 calls. Also, calls from a pay phone cannot be blocked.

CALL BLOCK

Call Block rejects calls from up to eight specific numbers. The last number that called you (a private entry) can be put on your list to prevent that number from reaching you again. Calls from numbers on your list hear a recorded message saying you are not accepting calls. Your phone doesn't even ring.

How to use Customer Originated Trace:

- Pick up your phone and listen for dial tone.

Remember, the system traces the last incoming call. This includes the number associated with any Call Waiting tones received.

Privacy for 800-900 Numbers

YOUR CUSTOMER PROPRIETARY NETWORK INFORMATION RIGHTS

"In the normal course of providing your telephone service, the Company maintains certain information about your account. This information, when matched to your name, address and calling or originating billing telephone number, is known as your customer-specific "Customer Proprietary Network Information;" or CPNI for short. Examples include the type of line you have, technical characteristics, class of service, current telephone charges, long-distance and local service billing records, directory assistance charges, usage date, and calling patterns.

The Company may use your CPNI to market our services to you. However, the PUC of Texas has adopted rules stating that the Company may not use your CPNI to market certain telephone services or features to you if you have requested that your CPNI be considered restricted for this purpose. If you wish to have your CPNI considered "restricted", call the business office at 903-797-2711 and tell us of your preference to have restricted CPNI. This restriction will remain in effect until you notify the business office otherwise. While this restriction is effective, the Company may still have some marketing contacts with you not based upon your CPNI. Please call for further information.

YOUR RIGHTS AS A CUSTOMER

DEPOSIT REQUIREMENTS

If you cannot provide satisfactory credit references or do not have a good payment record or cannot provide a guarantee satisfactory to the Cooperative, you may be required to make an initial deposit equivalent to one-sixth (1/6) of your estimated annual billings, including charges for long distance service where the Cooperative's tariffs provide for billing for the long distance company.

During the first twelve (12) months of service, the Cooperative may require an additional deposit if your actual usage is three (3) times your estimated usage.

INTEREST ON DEPOSITS

The Cooperative will pay interest on all deposits made by its customers at an annual rate as set for each calendar year by the Public Utility Commission of Texas. Payment of the interest on the deposit shall be made annually if requested by you, or sooner if your service is discontinued.

RETURN OF DEPOSITS

If a residential customer has paid bills for service for twelve (12) months consecutive billings without having service disconnected for nonpayment of a bill and without having more than two (2) occasions in which a bill was delinquent, and is not delinquent in payment of current billing, the Cooperative will automatically refund the deposit plus accrued interest. If you have a guarantee for payment of your account, the Cooperative will void and return the guarantee to the guarantor.

TIME ALLOWED TO PAY OUTSTANDING BILLS

Your bill for local, toll and miscellaneous services is issued monthly and is due and payable at the Cooperative's office on or before the due date, which is sixteen (16) days after issuance. Your bill for telephone service will become delinquent if unpaid by the due date. If the due date falls on a holiday or weekend, the due date for payment purposes shall be the next working date after the due date.

If your bill has not been paid within the sixteen (16) days allowed for payment, a TERMINATION NOTICE will be sent to you at least ten (10) days prior to a stated date of disconnection. If the cutoff day falls on a weekend or holiday, the cutoff will be made on the next working day after the tenth day or twenty-six (26) days from the date of issuance.

To avoid disconnection of your local service, you must pay the total amount due for local service. Your long distance may be subject to toll blocking until full payment of your long distance charges is received.

RESOLVING BILLING DISPUTES

In the event of a dispute between you and the Telephone Cooperative regarding any bill for telephone service, the Cooperative will investigate the particular case, and report the results to you. Your service will not be subject to disconnection for not paying that portion of a bill under dispute pending the determination of the dispute.

DIRECTORY NOTICE

Selecting a Telephone Company -- Your Rights as a Customer

Telephone companies are prohibited by law from switching you from one telephone service provider to another without your permission, a practice commonly known as “slamming.”

If you are slammed, Texas law requires the telephone company that slammed you to do the following:

1. Pay, within five business days of your request, all charges associated with returning you to your original telephone company.
2. Provide all billing records to your original telephone company within ten business days of your request.
3. Pay, within 30 days, your original telephone company the amount you would have paid if you had not been slammed.
4. Refund to you within 30 business days any amount you paid for charges during the first 30 days after the slam and any amount more than what you would have paid your original telephone company for charges after the first 30 days following the slam.

Your original telephone company is required to provide you with all the benefits, such as frequent flyer miles, you would have normally received for your telephone use during the period in which you were slammed.

If you have been slammed, you can change your service immediately back to your original provider by calling your authorized telecommunications provider (your original provider) and advising the company that you have been switched from its service without appropriate authorization. You should also report the slam by writing or calling the PUCT Consumer Protection Division, P.O. Box 13326, Austin, Texas 78711-3326, (512) 936-7120 or in Texas (toll-free) 1(888) 782-8477, fax: (512) 936-7003, e-mail address: consumer@puc.texas.gov. Hearing and speech-impaired individuals may contact the commission through Relay Texas.

You can prevent slamming by requesting a preferred telephone company freeze from your current service provider. With a freeze in place, you must give formal consent to “lift” the freeze before your phone service can be changed. A freeze may apply to local toll service, long distance service, or both. The Public Utility Commission of Texas can give you more information about freezes and your rights as a customer.

CHARGES ON YOUR TELEPHONE BILL

Placing charges on your phone bill for products or services without your authorization is known as “cramming” and is prohibited by law. Your telephone company may be providing billing services for other companies, so other companies’ charges may appear on your telephone bill.

If you believe you were “crammed,” you should contact the telephone company that bills you for your telephone service and request that it take corrective action. The Public Utility Commission of Texas requires the billing telephone company to do the following within 45 days of when it learns of the unauthorized charge:

- Notify the service provider to cease charging you for the unauthorized product or services
- Remove any unauthorized charge from your bill
- Refund or credit all money to you that you have paid for an unauthorized charge; and
- On your request, provide you with all billing records related to any unauthorized charge within 15 business days after the charge is removed from your telephone bill.

If the company fails to resolve your request, or if you would like to file a complaint, please write or call the:

Public Utility Commission of Texas
P.O. Box 13326
Austin, Texas 78711-3326,
(512) 936-7120 or toll-free in Texas at (888) 782-8477.
Hearing and speech-impaired individuals with text telephones (TTY)
may contact the commission at 1-800-735-2988.

Your phone service cannot be disconnected for disputing or refusing to pay unauthorized charges.

You may have additional rights under state and federal law. Please contact the Federal Communications Commission, the Attorney General of Texas, or the Public Utility Commission of Texas if you would like further information about possible additional rights.

TELEPHONE SOLICITATION

Texas law provides certain protections for a person who receives a telephone solicitation at a residence.

A telephone solicitor must:

- Identify himself or herself by name;
- Identify the business on whose behalf he or she is calling;
- Identify the purpose of the call.
- Identify the phone number at which the person, or organization making the call, may be reached.

A telephone solicitor may not call a residence before 9 a.m. or after 9 p.m. on a weekday or Saturday or before noon or after 9 p.m. on Sunday.

If a telephone solicitor uses an automatic dialing/announcing device, the machine must disconnect from your line within 30 seconds after termination of the call.

Exceptions: The requirements above do not apply to telephone solicitations made at your request, or solicitations made in connection with an existing debt or contract, or calls from a telephone solicitor with whom you have a prior or existing business relationship.

If you use a credit card to purchase a good or service from a telephone solicitor other than a public charity (an organization exempt from federal income tax under the Internal Revenue Code, sec. 501 (c)(3)), the seller must:

- Offer a full refund for the return of undamaged and unused goods within seven days after you receive the goods or service (the seller must process the refund within 30 days after you return the merchandise or cancel your order for undelivered goods or services); or
- Provide you with a written contract fully describing the goods or services being offered, the total price charged, the name, address, and business phone of the seller, and any terms and conditions affecting the sale.

Complaints. The Texas Attorney General investigates complaints relating to a violation of this law, which is found at the business and Commerce Code, Chapter 37. If you have a complaint about a telephone solicitor whom you believe has violated this law, contact:

Consumer Protection Division
Office of the Attorney General of Texas
P.O. Box 12548
Austin, Texas 78711
Hotline: 1-800-621-0508

Another law, found at Texas Civil Statutes Article 1446c, sec. 119 and sec. 120, requires a telephone solicitor to make every effort not to call a consumer who asks not to be called again. Complaints relating to a violation of this law are investigated by the Public Utility Commission of Texas. If you have a complaint about repeated solicitation from a telephone solicitor you have asked not to call you again, contact:

Upon receipt of a billing error notification, a written acknowledgement will be sent to the customer within 40 days of receiving the customer's notice which will advise that they need not pay the disputed amount pending an investigation; however, if billing error is corrected and the customer's account credited, if applicable, with the 40-day period, no written acknowledgement is required;

If it is determined that a billing error occurred, it will be corrected and the account credited within two (2) billing cycles; the customer will be notified of the correction; if it is determined that a billing error did not occur, an explanation to the customer outlining why it was determined no billing error occurred; if requested by the customer, the billing entity will provide a written explanation with sufficient documentation to support the charges due from the customer;

Local or long distance service may not be disconnected for non-payment of 900 charges;

The telephone company may either on its own initiative or at the request of the interexchange carrier or information provider, block your access to 900 services if you fail to pay legitimate charges; Upon customer request and where technically feasible, 900 blocking will be provided at a fee approved by law or regulation.

ETEX encourages customers to be certain of the caller's identification prior to accepting collect calls. If the caller's identification is not recognized, the customer should reject the call.

The Public Utility Commission of Texas has directed telecommunications providers to provide this notice to customers regarding your rights when accepting collect calls, as there have been instances where collect calls have been placed for fraudulent reasons. The company is required to monitor customer calls based on fraudulent collect calls. Therefore, if you believe to have been victimized by such practices, you are encouraged to report it.

This program is open to all individuals who are residents of Texas and have a disability.

NO-CALL LIST CUSTOMER NOTICE

The federal government and many states have recently created an opportunity for consumer to reduce unwanted telemarketing telephone calls they receive. Consumers simply register with the National Do-No-Call Registry telephone at 1-888-382-1222. For TTY call 1-866-290-5236. You must call from the phone number you wish to register. You may also register by Internet www.donotcall.gov. Inclusion of your telephone number on the National Do-No-Call Registry will be effective three months following your registration. As a result of consumers registering on the national list, telemarketers must remove the registered consumer's names and number from their calling lists and cease calling for five years. The National Do Not call Registry is a free service to all consumers.

Consumers in Texas may also register with Texas No-call, which prevents telephone solicitations to residential and wireless phone numbers from all telemarketers operating in Texas. Consumers may register for the Texas No-Call list in two ways:

1. Online at <https://www.texasnocall.com> for instant registration. Utilize this easy, automated method to speed your registration. This site is available 24 hours a day, 7 days a week, 365 days a year. Online registration is now free.

2. Call toll-free 1-888-309-0600 or email customerservice@texasnocall.com to obtain an application or to register.

There is no charge to register your residential or wireless number on the statewide "Do Not Call List." Your number(s) will remain on the list for three years.

Texas consumers may want to consider registering with the National Do-No-Call Registry since it covers national telemarketers and the Texas No-Call affects only telemarketers operating in Texas.

The national and the Texas No-No Call lists do not prevent all telemarketing calls from being received once a consumer is registered. Both registries contain exemptions on who can continue to telemarket consumers.

Privacy when using 800-900 numbers and Per-Line or Per-Call Blocking

"Per-line or per-call blocking does not prevent transmission of your telephone number when you call a company using an 800, 888 or 900 number. Therefore, your number may be available to that company's service representative before your call is answered."

Universal Service Fund

"You may notice a charge called 'Texas Universal Service' that pays for the Texas Universal Service Fund. This fund was created by the State of Texas to help pay for low income customers and customers in high cost rural areas and to serve customers with disabilities. This charge is approximately 3.60 percent of your bill and will soon be offset by reductions in in-state long distance charges. If you have any questions about this charge or how it is calculated, please call your telephone company."

PREFERRED TELEPHONE COMPANY FREEZE

A preferred telephone company freeze (“freeze”) prevents a change in a customer’s telephone provider unless you consent by contacting the local telephone company. A freeze can protect you against “slamming” (switching your telephone service without your permission). You can impose a freeze on your local toll, long distance service, or both. To impose a freeze, contact ETEX. ETEX must verify your freeze request by getting your written and signed authorization, electronic authorization, or through an independent third party verification. You will not be able to change your telephone provider without lifting the freeze. You may lift a freeze by giving ETEX a written and signed request or by calling ETEX with your request. You must do this in addition to providing the verification information that your new telephone provider will request. There is no charge to the customer for imposing or lifting a freeze.

The purpose of a freeze is to prevent a change in your telephone company without your consent. A freeze is a protection against “slamming” (switching your telephone company without your permission). You can impose a freeze on either your local toll or long distance service provider, or both. If you want a freeze, you must contact ETEX at 903-797-2711 to lift the freeze before you can change your service provider. You may add or lift a freeze at any time at no charge. 26.130(j)

BY-LAWS of ETEX TELEPHONE COOPERATIVE INC.

ETEX TELEPHONE COOPERATIVE, INC.

Etex Telephone Cooperative, Inc. was founded in March 17, 1952 by a group of East Texas residents wanting telephone service for their rural area. The first directors of Etex were: D. B. Clonts, G. W. McDuff, C. H. Otto, T. O. Brooks, Therman Carroll, C. L. Starkey, and Welby Carlock.

The arduous task of soliciting the 743 signed members required by REA for loan approval began shortly after the cooperative's organization. They required members to pay a \$10 membership fee and agree to pay \$40 equity at the time the telephone was installed. Convincing a farmer who had never had telephone service that he would ever need it bad enough to pay \$40 was not always easy. However, by early 1953, they had signed the 743 members.

Etex Telephone Cooperative has grown beyond the wildest dreams of the first Board of Directors. Now there are seven exchanges with approximately 10,000 access lines and more than 100 full and part-time employees. Today Etex is a total communications provider by providing cellular, internet, long distance service and IPTV.

The Board of Directors and the employees of Etex Telephone Cooperative, are working to fulfill the mission that they started over fifty years ago: to provide the best communication service to their subscribers.

In order to induce Patrons and to insure that the Cooperative will be operated on a non-profit basis, the Cooperative is obligated to account on a patronage basis to all its Patrons and Members alike, for all amounts received and receivable from and directly related to the furnishing of telecommunications and information services in excess of operating costs and expenses properly chargeable against the furnishing of such services hereinafter referred to as margins from patronage business. All such margins from patronage business at the moment of receipt by the Cooperative are received with the understanding that they are furnished by the Patrons as capital.

(b) Allocation of Capital Credits. The Cooperative is obligated to pay by credits to a capital account for each Patron all margins from patronage business. The books and records of the Cooperative shall be set up and kept in such manner that at the end of each fiscal year the amount of capital, if any, so furnished by the Patron is clearly reflected and credited in an appropriate record to the capital account of each Patron, and the Cooperative shall within a reasonable time after the close of the fiscal year notify each Patron of the amount of capital so credited to the Patron's account. All such amounts credited to the capital account of any Patron shall have the same status as though it had been paid to the Patron in

cash in pursuance of a legal obligation to do so and the Patron had then furnished the Cooperative corresponding amounts for capital.

If the costs and expenses exceed the amounts received and receivable from the furnishing of patronage business, hereinafter referred to as "loss," then the Board shall have the authority under accepted accounting practices and applicable tax law to prescribe the manner in which such loss shall be handled.

The Board has the authority to determine through policy which services are included in the definition of patronage business. The Board also has the authority to determine the kind, timing, method, and type of allocation; provided however, that such methods are fair and equitable on the basis of patronage.

(c) Allocating Other Margins. All other amounts received by the Cooperative in excess of costs and expenses, except those derived from patronage business, shall, insofar as permitted by law, be used to offset any losses during the current or any prior fiscal year and, to the extent not needed for that purpose, either:

(1) Allocated to its Patron on a patronage basis and any amount so allocated shall be included as part of the capital to be allocated to the accounts of the various classes of members in an equitable manner as approved by the Board, or

(2) Used to establish and maintain a non-operating margin reserve not assignable to Patrons prior to dissolution of the Cooperative.

(d) Redemptions by Board Discretion. If, at any time prior to dissolution or liquidation, the Board shall determine that the financial condition of the Cooperative will not be impaired thereby, the capital then credited to Patrons' accounts may be retired in full or in part. All retirements of capital shall be at the discretion and direction of the Board as to kind, timing, method, and type of distribution; and whether such retirements are in full, part or subject to general discounts.

(e) Payments and Redemptions Upon Dissolution. In the event of dissolution or liquidation of the Cooperative, after all outstanding indebtedness of the Cooperative shall have been paid, outstanding capital credits shall be retired without priority on a pro rata basis before any payments are made on account of property rights of Patrons.

(f) Capital Assignment. Capital credited to the account of each Patron shall be assignable only on the books of the Cooperative, pursuant to written instruction from the assignor and only to successors in interest, or successors in occupancy, in all or in a part of such Patrons' premises served by the Cooperative, unless the Board, acting under policies of general application, shall authorize other types of assignments. Patrons at any time may assign their capital credits back to the Cooperative and the Cooperative is authorized to negotiate capital credit settlement arrangements with bankrupt patrons.

Any attempt to assign or transfer the capital credited to the account of a Patron pursuant to state or federal law is subject to a right of first refusal vested in the Cooperative for a period of sixty (60) days following notice to the Cooperative of a proposed transfer of such capital to the extent the Cooperative meets any compensation terms of the proposed transfer.

(g) Redemptions Upon Death. Notwithstanding any other provision of these Bylaws, the Board, at its discretion, shall have the power at any time upon the death of any natural Patron, or the dissolution or cessation of business by a non-natural person, if the legal representative of his estate shall request in writing, that the capital credited to any such Patron be retired prior to the time such capital would be retired in a general retirement under provisions of these Bylaws; and, to retire capital credited to any such Patron immediately upon such terms, conditions, discounts or payouts as the Board, acting under policies of general application, and the legal representative of such Patron's estate shall agree upon; provided, however, that the financial condition of the Cooperative will not be impaired thereby.

(h) Minimum Accounts. When the capital credits of any Patron no longer receiving service from the Cooperative comes to a total amount of less than a fixed sum determined by the Board of Directors, the same shall be retired in full with such retirements made only when and at the same time that a general retirement to other Patrons is made. During a general capital credit retirement, no checks shall be issued for less than a fixed amount determined by the Board, and the amount of such unretired capital credits will be retired in the first following year, when the total amount of capital credits qualifying for retirement exceeds that amount set by the Board, including the amount carried over.

(i) Tax Refunds. All tax refunds made by the United States Government or any of the states in connection with the final or true cost of service as determined by the capital credits allocation process may be held and used by the Cooperative as furnished patronage capital and shall be treated in the same manner as furnished capital set out in this Section of these Bylaws.

(j) Debts Offset. Regardless of statute of limitations or other time limitations, the Cooperative may recoup, offset, or set off any amount owed to the Cooperative by a Patron prior to payment of capital credits to the Patron or Patrons. Amounts so offset shall be together with interest thereon at the Texas legal rate on judgments in effect when such amount becomes past due, compounded annually.

SECTION 4. Patronage Capital Policies.

(a) Policy Review. The Board of Directors shall periodically review all policies with regard to the allocation of patronage capital to the members. The Board of Directors shall not allocate non-operating earnings or margins to Patrons, except in the event of dissolution of the Cooperative or when distributions or dividends are received by the Cooperative for a subsidiary corporation for the express purpose of allocating patronage to the Patrons.

(b) Allocation from Subsidiaries. The Board of Directors may allocate patronage capital to eligible Cooperative members for dividends or distribution from the Cooperative's subsidiaries.

(c) Allocation Eligibility. The Board of Directors may establish categories of membership that are not eligible for the allocation of patronage, and the Board shall not allocate any patronage capital on the basis of:

- (1) purchase of telecommunication equipment;
- (2) purchase of local access or toll services;
- (3) purchase of any and all services for resale;
- (4) payment of access charges, universal service fund support payments, any regulatory or legislative assessments; or
- (5) payment of interconnection fee and charges.

Nothing herein shall prevent the Cooperative from establishing subsidiaries that are wholly-owned by the Cooperative and operated as a separate cooperative or corporation, and whose margins or dividends shall be eligible for patronage allocation to the Cooperative's members in a reasonable, fair and equitable manner.

SECTION 5. Patronage Capital in Connection with Furnishing Other Services.

In the event that the Cooperative should engage in the business of furnishing goods or services other than traditional telecommunications and information services, all amounts received and receivable there from which are in excess of costs and expenses properly chargeable against the furnishing of such goods or services shall, insofar as permitted by law, be prorated annually on a patronage basis and returned to those Patrons from whom such amounts were obtained at such time and in such order of priority as the Board shall determine. Any margins received by the Cooperative from subsidiaries or affiliates may be allocated or determined within the discretion of the Board of Directors as patronage credit or as permanent equity of the Cooperative.

ARTICLE VIII DISPOSITION OF PROPERTY

The Cooperative may not sell, mortgage, lease or otherwise dispose of or encumber all or any substantial portion of its property unless such sale, mortgage, lease or other disposition or encumbrance is authorized at a meeting of the members thereof by the affirmative vote of not less than two-thirds of all of the members of the Cooperative and unless the notice of such proposed sale, mortgage, lease or

To insure easy paint can clean up...
 puncture the inside lip of paint
 cans several times by hammering
 a large nail through it six or seven
 times (equally spaced). This will
 allow the paint to drain back
 into the can and
 will keep the lid from sticking in
 place when the paint dries.
 The lid will still seal properly!
